Subject: sampling locations from Farmington to Shiprock

Hi John,

Yesterday there were R9 sampling locations showing up on the San Juan River between Farmington and Lake Powell (about 12 sites). They are no longer in the map service. Can you put them back in? RA needs them ASAP. Call if you need to.

Thanks,

Cheryl

Hey Randy,

Below is the information for SADIE. Gold King Blowout is the major project where our data is going in.

All,

A new version a SADIE specifically for the Gold King ER is now deployed. This version is integrated with the popups in the Gold King Ops viewer. Region 6 is still working on migrating a Region 8 widget that further integrates SADIE with the Ops viewer.

SADIE – Gold King Mine (the main project to use is Gold King Mine Blowout)
